## **INTRODUCTION**

**Goffstown Achievement 2025** provides a comprehensive profile of our school district.

The compilation and distribution of this report is in keeping with the Superintendent's message for both accountability and transparency. The information in this document comes from the New Hampshire Department of Education, Goffstown School District, and Town of Goffstown publications and data. The Goffstown Educational Community is proud of our academic programs and student accomplishments. The indicators in this report will be updated annually.

# GRADUATE

SAU #19

**Critical Thinking**

Our graduates are adept thinkers and communicators, able to adapt to solve complex problems independently and collaboratively.

**Connection**

Our graduates contribute positively within and beyond the classroom through the arts, athletics, co-curriculars, and community service.

**Citizenship**

Our graduates work toward a common good, inclusive of personal and cultural differences while embodying strong character, ethical conduct, and digital responsibility.

**Community**

Our graduates value the unique contributions of—and build caring relationships with—their peers, school staff, and all members of their community.

## **GOFFSTOWN VISION, MISSION, AND GUIDING PRINCIPLES**

Vision:

The Goffstown School District is an educational community where students, teachers, professional and support staff, parents, school board members, and the entire community value and support academic achievement and are proud of their schools.

Mission:

The Mission of the Goffstown School District is to provide the opportunity for each student to obtain a substantive, challenging, and appropriate education consistent with the student's abilities, offered within a safe environment, and serves as a foundation for lifelong learning.

Guiding Principles

1. High quality and equitable public education is a foundation of our democracy.
2. Public education accepts and educates students possessing the full range of ability and interest.
3. Public education continues to do a respectable job under increasing societal expectations and demands. We strive to balance the demands with our educational goals.
4. Each student in the Goffstown School District has the right to an academic environment, which allows him or her to grow both intellectually and personally.
5. The responsibility of public education is to educate students to be good global citizens, to prepare them to live rich and rewarding lives, to be life-long learners, and to be valuable and flexible employees in a challenging and ever-changing world.
6. All students have the right to the opportunity to achieve a high-quality education and to be challenged at their own level. For this to occur all students should have access to a fair portion of the appropriated educational resources.
7. Schools must be a safe place in which the full range of learning and intellectual exploration can take place. Safe schools respect and encourage the open exchange and examination of different ideas, beliefs and opinions.
8. Our Schools are a reflection of our community, and we can only achieve high standards if the community as a whole expects, supports and upholds those standards.
9. All members of the Goffstown academic community must be held to the highest standards. The academic community, both individually and collectively – must create and maintain a caring, supportive, and rigorous learning environment if the promise of a high-quality education is to be realized.
10. Goffstown schools can be most effective when there is active cooperation and collaboration between the schools and the larger community. Our schools should provide opportunities for involving parents and other members of the community in their schools.
11. The Goffstown community has the responsibility of providing its young people with a genuine opportunity to achieve a high-quality education. Opportunity, however, cannot guarantee results. It is the responsibility of the students and their parents to take full advantage of the opportunities provided to them.
12. Our schools and administration should regularly review and update educational policies to ensure they are in alignment with the mission and vision

2024-25	562	20.25%

- Efforts in Multi-Tiered Systems of Support (MTSS) continue to proactively support students and provide instruction to prevent gaps in skill acquisition.
- The Goffstown School District is required to provide Special Education and related services to students with educational disabilities pursuant to the Federal Individuals with Disabilities Education Act (IDEA) along with the New Hampshire Standards for the Education of Children with Disabilities. These Federal and State mandates require school districts to evaluate students suspected as having educational disabilities, provide students with Individual Education Programs (IEPs), and provide services, occupational and physical therapy, counseling services, behavioral therapy, and intervention, along with other special services. These services are to be provided in the Least Restrictive Environment (LRE) providing access to non-disabled peers and the general education curriculum. To meet this legal mandate, the Goffstown School District has developed a wide array of programming support to meet the unique needs of children within our public school. In addition, some students' specific needs are such that they are educated in out-of-district programs due to the severity of their disabilities.
- Special educators provide services in collaboration with regular classroom teachers.

Advanced Placement courses have been offered at Goffstown High School for over 18 years providing an opportunity for students to take college level courses and exams while they are still in high school. Scores on the AP Exams range from 1 to 5. Each college decides the AP exam score it will accept for credit and/or advanced placement.

## Goffstown Adult Education Program (GAP): Graduation Rate

Graduation figures as a result of Adult Education

2019 – 2025

- The Goffstown Adult Education program is a state accredited regional tuition program that enables students to obtain a high school diploma.
- Students can reach their educational goals in the GAP program through the following options:
  - Goffstown High School Diploma (22.5 credits)
  - Goffstown High School Adult Education Diploma (20 credits)
- The Adult Education Diploma enables students to attend two or four-year colleges, join the Armed Services, or enter the workplace. There has been a steady increase in graduation rates, as more students are using the Goffstown Adult Education Program to earn a traditional or adult education diploma.
