Distance Learning with the Library!

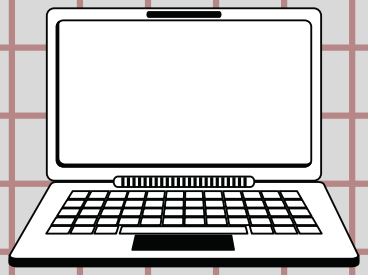

2026-2027

Join Us in Schoology!

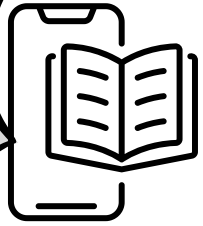

Join our class in Schoology to have access to all of our online resources... eBooks, audiobooks, challenges, makerspace, and more!

To join our class on a computer... Click on courses, click on "my courses," click on join course, type in the following code:

Class of 2031: 2PG2-CHX8-MM7FH
Class of 2032: TWTP-T4ZF-WNJRC
Class of 2033: S9KX-VFX9-FBM63
Class of 2034: KGBB-7SQP-R89B3

Reading at Home!

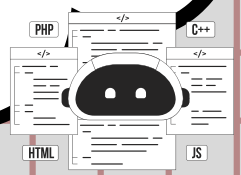

Go to Schoology, open a course, click on Follett Destiny. OR Go to the MVMS website and click on the "Library Catalog" link and Log in with your Microsoft Account to have access to all of our eBooks and audiobooks to do some reading at home!

This is OPTIONAL and considered ENRICHMENT activities. It is your choice on how you would like to get involved and participate. You can choose to do anything listed on this page or you can choose to do any of the choice board activities on the other page. If you choose to participate, you can go to the Info Center Course on Schoology, find the distance learning folder, find the "assignment" for the day and tell us how you participated. If you have a printed version, you can turn in your paper to the Info Center. For each way you participate, you will be entered into our Distance Learning Day Raffle for a special surprise! If you share a photo of something you completed, you will earn bonus entries!

Coding at Home

There are a lot of coding websites and activities online! We have a few ideas linked in our Schoology Course. We also have eBooks in Destiny that will teach you how!

Makerspace at Home!

Now is your chance to have some fun at school... make something, create something, cook something, etc. Check out one of our Makerspace eBooks for some ideas!

Distance Learning Info Center Choice Board

2026-2027

Use at least 3 different recycled materials to create a boat that will float in a sink or tub.

Build some sort of paper structure with recycled paper. (Bonus points if it can hold some sort of sports ball.

Create a set of flashcards for something you need to study for.

Bake or cook some type of dessert by following a recipe in one of our cooking eBooks or a recipe you find online..

Play a board game or card game.

Create a brochure or poster about a favorite place you have been.

Read for 30 minutes.

Draw a picture that would be used if your favorite movie was turned into a picture book.

Complete a puzzle or make your own puzzle.

Create a collage with recycled paper or photos.

If you are using materials at home, please make sure you have permission from your family BEFORE using them!

Figure out how many hours old you are!

Draw a picture, doodles, or designs while listening to your favorite music.

With $100 to spend, create a budget for a surprise party for your friend.

Turn and old piece of clothing into something new (ex. a bag, a different piece of clothing, etc.)

Read a picture book or chapter out loud to someone else .

Look for shapes and letters in nature, take a photo and create a slideshow. (ex. look for letters that spell your last name.)

Fill a Cup Challenge! Fill a cup with a small items (like Legos or paperclips) and see how many different things you can build.

Go outside and create a fairy house or the tallest structure you can while only using natural materials!

Create a comic about something that you have already learned in school this year.

Use empty toilet paper rolls or paper towel rolls to create a marble run or some sort of craft.
