

Summer 2026

Dear Second Grader,

Welcome to the second grade! I'm Mrs. Veilleux, and I am thrilled to be your second grade teacher!

In our classroom, reading and writing are at the core of what we do. You'll have the chance to dive into wonderful stories and express your thoughts and ideas through writing. We'll explore how words can open worlds and help us communicate with others.

Math will also be a big part of our learning journey. We'll tackle fun problem-solving activities that will challenge your brain and help you see math in new and exciting ways. You'll become a math detective, solving puzzles and finding patterns.

We'll also learn how to listen to our brains and bodies to do our best work. This means discovering how to recognize what you need to feel focused and ready to learn. Whether it's taking a deep breath, moving around, or having a quiet moment, you'll find out what works best for you.

And let's not forget about our curiosity for the world! We'll explore new ideas, ask questions, and discover amazing things about the world around us. Our classroom will be a place of wonder and exploration, where your curiosity leads the way.

I can't wait to get started and share this year of learning and growing with you. It's going to be an incredible journey, and I am so happy to be your teacher.

Warmly,

Mrs. Amy Veilleux
